

Improving mobility access in Northwest Ohio

Transportation Coordination Committee

September 8, 2021

Updates

- ODOT awarded grants to Triangular Processing (5310), Henry County Transportation Network (5311), and Mobility Management (5310) for FY2022
- Splitting region 4- this would separate us from Lucas, Wood, Ottawa, and Sandusky
 - [Human Services Transportation Coordination \(HSTC\) Regions Map](#): reviewing the pros vs. cons of splitting the region. Please let the Mobility Manager know your thoughts.
 - Pros: our coordinated plan would become regional, which will give us more points and more opportunities for funding
 - Cons: not sure, need to research if it will hurt competitive grants for funding based on numbers of individuals in the region
- Defiance- Keller Logistics investigating the creation a non-profit 501c3 to apply for 5311 grant
 - Lawyers are working on the creation of a non-profit
- Fulton County is investigating partnerships (seniors and veterans) with Triangular Processing for 5310 grant
 - Meeting next week to discuss partnership opportunities
- Henry & Williams- investigating partnership for 5311 grant

Guests- Visit postponed to another meeting

Kierra Branch, 5310 Program Coordinator, Ohio Department of Transportation

Todd Barstow, 5311 Program Coordinator, Ohio Department of Transportation
